Directions

Painting or rolling the inside of pieces: pour a medium amount of paint (or more for larger pieces) into a cup. Add water until the paint is the consistency of skim milk and mix well. Pour paint into piece and roll piece until paint covers the entire inside. Turn piece upside down on a paper towel and let dry/drain.

Funky Canister:

Step 1 - Roll inside of canister with Sweet Pea.

Step 2 - Paint outside of canister with 3 coats of Double Mint. Let dry between coats.

Step 3 - Paint lid in 3 coats of Tahiti Teal and lid handle in 3 coats of Double Mint.

Step 4 - Paint ball feet with 3 coats of Sweet Pea.

Let dry. Dip in Gare 9000D and fire to cone 06.

Paint remainder of pieces in the same manner using the picture above as a color guide. Leave top edges of bowl, mugs and canister bare. After firing the white of the bisque will be a nice contrast to the sea glass colors.
