

Lots of Heart

Recipe Courtesy of Gare, Inc.

Ingredients

3009 Heart Plate
2051 Heart Bowl
7193 Heart Beaded Plaque
7178 Hugs & Kisses Keeper
4112 Heart Impression Mug
8160 Heart Bisque
8163 Rose Bisque

FS 2304 Green Acres
FS 2314 Black Lab
FS 2315 What A Yolk
FS 2341 Kermit
FS 2392 Rockin' Red
FS 2394 Cotton Candy

Ultimate II Brushes - #4 & #8
Sponge
Paper
Scissors

Directions

Step 1- Apply 3 coats of Cotton Candy to the top and sides of the heart plate, the top and rim of the bowl, the inside and outside of the mug excluding the handle, the entire hugs and kisses keeper and the heart plaque.

Step 2- Apply paper cut outs to all your pieces as shown in the photo (Cricut or paper punches work really well). To apply the paper, hold the paper cut out in your fingers and dip the whole paper into water and apply to the piece. Dab with a sponge to get off the excess water that will drip. Apply all paper the same way. If I cut any designs using the Cricut, I use paper instead of sticker paper. I only use sticker paper if I am applying to bisque. **(Note: The paper has to be applied with a glaze under it as in this technique. It cannot stick directly to bisque because when the bisque dries it will fall off. If you want to do this technique right onto the bisque you would need to use contact paper or sticker paper instead of regular copy paper)**

Step 3- After you apply all the paper cut outs. Apply 3 coats of Rockin' Red to the entire heart plate, the underside of the bowl, the outside of the mug including the

handle, and the band and the heart on the hugs and kisses keeper. Also cover the rose bisquie and the two heart bisquies with the Rockin' Red.

Step 4- Peel off all paper. Clean up any edges and apply any other details you would like using a small brush or Fun Writer.

Step 5- On the heart plaque, trace the pattern over the pink and apply 2 coats of Kermit to the leaves and stem and two coats of What-a-Yolk to the arrow. Shade the leaves with Green Acres and the arrow with Black lab. Shade the rose with Black Lab and write names on the hearts with Black Lab. You can apply the bisquies by firing them on or epoxy them on after they are fired.
